WITHDRAWAL OF TROOPS

Will Not Be Decided Upon Until German Situation is Cleared Up—Gen. Funston Wants to Change Base to Shorten Line of Communication to Pershing's Camp.

(ASSOCIATED PRESS TELEGRAM)
Washington, April 19.—Major General Hugh L. Scott, chief of staff of the army, will go to San Antonio, Texas, tonight by order of Secretary Baker, in order to get accurate information as to the situation on the border and in Mexico.

Secretary Baker issued this statement:

"General Scott leaves for San Antonio this evening at 6:16 at my request. He will spend several days with General Funston, and return. This trip is made solely for the purpose of getting as accurate information as is possible for the use of the department. General Funston remains in full charge of the affairs of his department including the expedition into Mexico. He has the full confidence of the department and his dispositions have the department's entire approval."

Secretary Baker would not discuss General Scott's mission beyond his formal statement. It was assumed however, that his report after conference with General Funston will go far toward determining the course to be pursued in Mexico. It is known that General Funston has been urging the department that he be permitted to shift his headquarters and the border base in order to shorten his line of communications.

The department has not thus far approved the suggestion although the request was before the cabinet yesterday.

General Funston report on this subject has not been given out here and Secretary Baker has declined to discuss these phases of the Mexican problem. The department apparently has hesitated to authorize any radical change in the status of the expedition in the face of requests from General Carranza that the troops be recalled because it might tend to increase anti-American feeling among Carranza's garrisons. For the same reason the sending of heavy reinforcements to the border has not been resorted to as yet.

Until the German situation is clearly understood it is impossible to forecast the administration's decision as to the Pershing expedition.

HUGHES IS CHOICE OF NEBRASKA G. O. P.; WILSON UNOPPOSED

(ASSOCIATED PRESS TELEGRAM)
Omaha, Neb., April 19.—With reports from only 100 of the 1800 precincts in the state available early today, the balloting in yesterday's state-wide primary indicated the following nominations:

President—Republican, Charles E. Hughes; Democratic, Woodrow Wilson (unopposed).

United States senator—Republican, John L. Kennedy; Democrat, Gilbert M. Hitchcock.

The name of Justice Hughes was written on the ballots.

Henry Ford of Detroit, a candidate for the Republican presidential nomination ran ahead of all opponents in Omaha, but the small town and country precincts piled up a majority for Hughes. Senator Cummings of Iowa is running close behind Justice Hughes.

DEMANDS RELEASE OF SECRETARY

GERMAN EMBASSY DECLARES VON IGEL'S OFFICE IS BRANCH OF WASHINGTON OFFICE

Federal Officials Assert That His Office Was Committed Before He Was Attached to Embassy.

(ASSOCIATED PRESS TELEGRAM)

New York, April 19.—Government officials here faced a unique situation today resulting from the demand of the German embassy in Washington for the release of Wolf von Igel and the return of documents seized in his office when he was arrested yesterday on an indictment charging him with complicity in a plot to destroy the Welland canal. Von Igel formerly was secretary to Captain Franz von Pappen, the recalled military attaché of the German embassy which claims diplomatic immunity for him. The embassy demanded the return of the papers seized in his office on the ground that the office is a branch of the embassy. Seventy pounds of documents and letters taken from von Igel's office are in possession of federal authorities. It was reported they were of great importance as throwing light on various German activities in this country during the last twenty months.

Although Counselor Polk of the state department, upon receiving the request of the German embassy, advised the department of justice to return the papers and to free von Igel unless his alleged offense was committed before he became a member of the embassy staff, federal agents said they had as yet received no such instructions. The case seems to hinge upon the question whether the offense charged against von Igel was committed before he was employed by the German embassy. It is charged that the Welland canal plot was organized in September, 1914, within two months of the beginning of the war. Records of the state department show that it received notice of the appointment of von Igel as a member of the embassy staff in September, 1915, one year after the alleged crime.

Von Igel is at liberty under \$20,000 bail. A hearing in his case is set for next Tuesday. Federal prosecutors asserted that he would be released only upon instructions from the attorney-general in Washington.

Ambassador Bernstorff went to the state department not to discuss the submarine situation but to make a further formal demand for the return of papers which department of justice agents seized from Wolf von Igel, private secretary of Captain von Pappen, the withdrawn military attaché in New York yesterday.

The department of justice has practically decided to hold von Igel, unless the state department specifically demands his release, on the ground that the crime with which he is charged was committed a year be-

Will Be Prosecuted and Papers Will Not Be Restored

TO GERMAN EMBASSY SAYS U. S. ATTORNEY

Von Bernstorff Requests Return of Records

IMPORTANT EVIDENCE

Found In Records Disclosing Other Activities of German Propaganda In This Country—Also Said to Prove Von Igel's Part In Plot to Destroy Welland Canal in Canada.

(ASSOCIATED PRESS TELEGRAM)

New York, April 19.—The papers seized by federal agents yesterday in the office of Wolfe von Igel, former secretary of Captain Franz von Pappen, recalled German military attaché, will not be restored, neither will the prosecution of Von Igel for his alleged participation in the Welland canal plot be dropped, Assistant U. S. Attorney Roger B. Wood said today.

Mr. Wood announced he had examined the papers over night, that some referred to the alleged conspiracy to destroy the Canadian waterway and that there was no evidence that they were ambassadorial papers.

"If the papers are to be returned to the German ambassador," said Mr. Wood, "he must swear that they are part of the archives of the German embassy." The papers, he added, furnished additional evidence against the five men under indictment in the case. He intimated that in event claim to them is made on the ground that they are embassy record an admission by the embassy of responsibility for the matters they disclosed could only be implied.

Supplementing his assistant's statement, District Attorney Marshall said that in addition to the papers seized bearing upon the Welland canal plot there was also documentary evidence taken "of extraordinary importance," disclosing other activities in the so-called German propaganda in this country. What their nature was he declined to divulge, referring inquirers to Secretary of State Lansing.

Mr. Marshall said Counselor of State Polk had called him up from Washington today and informed him that the question at issue was whether von Igel was a member of the German embassy staff at the time of the alleged crime. To this, Mr. Marshall said he replied that investigation had disclosed that the man did not become a member of the staff until December, 1915, more than a year after the alleged Welland canal plot was hatched.

The district attorney intimated further that there was some question whether von Igel was really a member of the staff.

All the papers seized from the office of Wolfe von Igel by the Federal authorities yesterday have been forwarded to the department of justice at Washington, district attorney, Marshall said this afternoon. "This action was taken, he said, in response to orders received today from the department."

Blakeslee still insisted today that he killed Gates to save his own life, after the night watchman had threatened him and had reached for his gun.

Gates hands were in his pockets when his body was found, his right hand clutching his revolver.

ARMY BILL IS PASSED BY SENATE

(ASSOCIATED PRESS TELEGRAM)

Washington, April 19.—The army reorganization bill, passed by the senate last night, went to the house today, where a conference probably will be asked for on the measure.

The bill is a substitute for the Hay bill passed by the house and as finally approved without a record vote, would produce regular army and reserve forces in the United States aggregating a million men.

The bill was hurried through the senate amid exciting scenes after a joint session of the houses had been called for today to hear an address by President Wilson on grave international issues.

Attempts to reduce the proposed increase in the army were rejected in quick succession.

The bill differs radically from the house measure. On that account it was regarded as practically certain that a conference would be asked and that work of perfecting a new

MAY WITHDRAW PERSHING'S BOYS IF BREAK COMES

(ASSOCIATED PRESS TELEGRAM)

Washington, April 19.—Decision of the Washington government upon the question as to whether the American forces hunting Villa shall be recalled or reinforced for further operations, today awaited the receipt of further reports from American officers in Mexico. General Funston already has submitted a lengthy report on the situation and additional advice from him are momentarily expected. Meanwhile, indications are that the chase for Villa is at a standstill.

The general belief here is that the German situation would have some bearing upon the impending decision. Should a break in diplomatic relations occur, it was pointed out that the troops now in Mexico would be needed at home as military prudence would require that steps be taken to prepare for eventualities in Europe.

It was suggested that inasmuch as the main purpose of the expedition, the protection of the border, has been accomplished, an agreement for the withdrawal might be reached with General Carranza on the basis that if Villa or his bandits again headed northward, American troops would again cross the international line.

President Reviews Controversy With Imperial Government Over Submarine Question Starting With Lusitania and Ending With Sussex—Pronounces Latter Incident as Tragical and Unjustifiable—Declares This Government Has Been Patient and Has Accepted German Assurances in Good Faith

SAYS GERMANY UNABLE TO CONTROL U-BOATS

Tells Congress That He Has Told Germany In Note Dispatched Last Night That if Such Warfare Continues There is No Other Course to Pursue But to Discontinue Diplomatic Relations Altogether—Hopes Germany Will Recognize Justice of Demands and Meet Them In Spirit In Which They Are Made.

(ASSOCIATED PRESS TELEGRAM)

Washington, April 19.—President Wilson told congress, assembled in joint session shortly after 1:00 o'clock this afternoon he has given Germany irrevocable notification that the United States will break off diplomatic relations if her illegal submarine campaign is continued.

A note, America's last word, practically an ultimatum, and demanding an immediate reply, presumably was in the Berlin foreign office as the president was speaking.

It was dispatched last night in accordance with the president's plan to have it before the German government at the same moment he was addressing the American congress.

The president asked no action whatever of congress. He simply informed it of the accumulation of facts proving that Germany's assurance to the United States are being violated; that the submarine campaign despite the earnest protests of the United States is being conducted with renewed vigor in contravention of all the laws of nations and humanity and that he means to sever relations unless it is brought within the law.

Diplomatic history of the world shows that such a course is almost certain to be followed by war.

The president's note and his address to congress are final. They mark the end of diplomatic exchanges. A continuance of the long-standing friendly relations, the president made clear, depends alone upon Germany's conduct.

"I have deemed it my duty, therefore," the president told congress, "to say to the Imperial German government, that if it is still its purpose to prosecute relentless and indiscriminate warfare. . . . The government of the United States is at last forced to the conclusion that there is but one course it can pursue; and that unless the Imperial German government should now immediately declare and effect an abandonment of its present methods of warfare against passenger and freight-carrying vessels this government can have no choice but to sever diplomatic relations altogether."

The president said:

Gentlemen of the Congress: A situation has arisen in the foreign relations of the country of which it is my plain duty to inform you very frankly. It will be recalled that in February, 1915, the Imperial German government announced its intention to treat the waters surrounding Great Britain and Ireland as embraced within the seat of war and to destroy all merchant ships owned by its enemies that might be found within any part of that portion of the high seas, and that it warned all vessels, of neutral as well as of belligerent ownership, to keep out of the waters it had thus proscribed or else enter them at their peril.

The government of the United States earnestly protested. It took the position that such a policy could not be pursued without the practical certainty of gross and palpable violations of the law of nations, particularly if submarine craft were to be employed as its instruments, inasmuch as the rules prescribed by that law, rules founded upon principles of humanity, and established for the protection of the lives of non-combatants at sea, could not in the nature of the case be observed by such vessels.

It based its protest on the ground that persons of neutral nationality and vessels of neutral ownership would be exposed to extreme and intolerable risks, and that no right to close any part of the high seas against their use or to expose them to such risks could lawfully be asserted by any belligerent government.

The law of these nations in these matters upon which the government of the United States based its report, is not of recent origin or founded upon merely arbitrary principles set up by convention. It is based, on the contrary, upon manifest and imperative principles of humanity and has long been established with the approval and by the express assent of all civilized nations.

Notwithstanding the earnest protest of our government, the Imperial German government at once proceeded to carry out the policy it had announced. It expressed hope that the dangers involved, at any rate the danger to neutral vessels, would be reduced to a minimum by the instructions which it had issued to its submarine commanders, and assured the government of the United States that it would take every possible precaution both to respect the rights of neutrals and to safeguard the lives of non-combatants.

What has actually happened in the year which has since elapsed had shown that those hopes were not justified, those assurances insusceptible of being fulfilled.

In pursuance of the policy of submarine warfare against the commerce of its adversaries, thus announced and entered upon by the Imperial German government in spite of the solemn protests of this government, the commanders of German undersea vessels have attacked merchant ships with greater and greater activity, not only upon the high seas surrounding Great Britain and Ireland but wherever they could encounter them, in a way that has grown more and more ruthless, more and more indiscriminate as the months have gone by, less and less observant of restraints of any kind.

PRES. WILSON'S NOTE

(Continued from Page 1.)

have delivered their attacks without compunction against vessels of every nationality and bound upon every sort of errand. Vessels of neutral ownership, even vessels of neutral ownership bound from neutral port to neutral port, have been destroyed along with vessels of belligerent ownership. In constantly increasing numbers. Sometimes the merchantmen attacked have been warned and summoned to surrender before being fired on or torpedoed; sometimes passengers or crews have been vouchsafed the poor security of being allowed to take to the ship's boats before she was sent to the bottom.

But again and again no warning has been given, no escape even to the ship's boats allowed to those on board. What this government foresaw must happen has happened. Tragically has followed tragedy on the seas in such fashion, with such attendant circumstances, as to make it grossly evident that warfare of such a sort, if warfare it be, cannot be carried on without the most palpable violation of the dictates alike of right and of humanity. Whatever the disposition and intention of the Imperial German government, it has manifestly proved impossible for it to keep such methods of attack upon the commerce of its enemies within the bounds set by either the reason or the part of mankind.

In February of the present year the Imperial German government informed this government and the other neutral governments of the world that it had reason to believe that the government of Great Britain had armed all merchant vessels of British ownership and had given them secret orders to attack any submarine of the enemy they might encounter upon the seas, and that the Imperial German government felt justified in the circumstances in treating all armed merchantmen of belligerent ownership as auxiliary vessels of war, which it would have the right to destroy without warning. The laws of nations have long recognized the right of merchantment to carry arms for their protection and to use them, to repel attack, though to use them in such circumstances, at their own risk; but the Imperial German government claimed the right to set these understandings aside in circumstances which it deemed extraordinary. Even the terms in which it announced its purpose still further to relax the restraints it had previously professed its willingness and desire to put upon the operations of its submarines carried the plain implication that at least vessels which were not armed would still be exempt from destruction without warning and that personal safety would be accorded their passengers and crews; but even that limitation, if it was ever practicable to observe it, has in fact constituted no check at all upon the destruction of ships of every sort.

Again and again the Imperial German government has given this government its solemn assurances that at least passenger ships would not be thus dealt with and yet it has again and again permitted its undersea commanders to disregard those assurances with entire immunity.

Great liners, like the Lusitania, and the Arabic and many smaller boats like the Sussex have been attacked without a moment's warning, sometimes before they had even become aware that they were in the presence of an armed vessel of the enemy, and the lives of non-combatants, passengers and crews have been sacrificed wholesale, in a manner which the government of the United States cannot but regard as wanton and without the slightest color of justification. No limit of any kind has been set to the indiscriminate pursuit and destruction of merchantmen of all kinds and nationalities within the waters constantly extending in area, where these operations have been carried on; and the roll of Americans who have lost their lives on ships thus attacked and destroyed has grown month by month until the ominous toll has mounted into the hundreds.

One of the latest and most shocking instances of this method of warfare was that of the destruction of the French cross channel steamer Sussex. It must stand forth, as the sinking of the steamer Lusitania did, and so singularly tragic and unmistakable as to constitute a truly terrible example of the inhumanity of submarine warfare as the commanders of German vessels have for the past 12 months been conducting it. If these instances stand alone, some explanation, some disavowal by the German government, some evidence of criminal misdeed or of wilful disobedience on the part of the commander of the vessel that fired the torpedo might be sought or entertained; but unhappily it does not stand alone. Recent events make the conclusion inevitable that it is only one instance, even though it be one of the most extreme and distressing instances of the spirit and method of warfare which the Imperial German government has mistakenly adopted, and which from the first exposed that government to the reproach of thrusting all neutral rights aside in pursuit of its immediate objects.

The government of the United States has been very patient. In every stage of this distressing experience of tragedy after tragedy in which its own citizens were involved it has sought to be restrained from any extreme course of action or of protest by a thoughtful consideration of the extraordinary circumstance of an unprecedented war and actuated in all that it said or did by the sentiments of genuine friendship which the people of the United States have always entertained and continue to entertain towards the German nation. It has, of course, accepted the successive explanations and assurances of the Imperial German government as given in entire sincerity and good faith and has hoped, even against hope, that it would prove to be possible for the German government so to order and control the acts of its naval commanders as to square its policy with the principles of humanity as embodied in the law of nations. It has been willing to wait until the significance of the facts became absolutely unmistakable and susceptible of interpretation.

That point has now unhappily been reached. The facts are susceptible of but one interpretation. The Imperial German government has been unable to put any restraints upon its warfare against either freight or passenger ships. It has, therefore, become painfully evident that the position which this government took at the very outset is inevitable, namely, that the use of submarines for the destruction of an enemy's commerce is of necessity, because of the very character of the vessels employed and the very methods of attack which their employment with the principles of humanity, the long established and indisputable right of neutrals, and the sacred immunities of non-combatants.

I have deemed it my duty, therefore, to say to the Imperial German government that if it is still its purpose to prosecute relentless and indiscriminate warfare against vessels of commerce by the use of submarines, notwithstanding the now demonstrated impossibility of conducting that warfare in accordance with international law the government of the United States must consider the sacred and indisputable rules of international law and the universally recognized dictates of humanity, the government of the United States is at last forced to the conclusion that there is but one course it can pursue; and that unless the Imperial German government should now immediately declare and effect an abandonment of its present methods of warfare against passenger and freight carrying vessels this government can have no choice but to sever diplomatic relations with the government of the German Empire altogether.

This decision I have arrived at with the deepest regret. The position which all thoughtful Americans will look forward to with unaffected reluctance. But we cannot forget that we are in some sort and by the force of circumstances the responsible spokesmen of the rights of humanity, and that we cannot remain silent while those rights seem in process of being swept utterly away in the maelstrom of this terrible war. We owe it to a due regard for our own rights as a nation, to our sense of duty as a represent-

ident passed out of the chamber, died away.

Speaker Clark declared the joint session at an end, and the senators filed out. Speaker Clark referred the address to the foreign affairs committee and the house resumed its regular business.

The text of the note to Germany will be given by the state department probably for publication tomorrow morning.

Speaker Clark and Democratic Leader Kitchin declined to comment on the address. They said they desired to digest it fully before saying anything.

"The sending of a note to Germany was as mild a position as the President could take," said Representative Flood, chairman of the foreign affairs committee. "I think it will meet with the approval of congress and the country."

"I think this government should be neutral," said Republican Leader Mann. "The President never has been neutral. He has been on the English side all the time. What he said about Germany, while it is grossly exaggerated, is a just complaint. But he could say just the same about England and our shipping, substitute 'sinking ships' for 'sinking ships.' It is a mistake to break off diplomatic relations with Germany. That is simply to quit in a huff. It is perfectly evident that the President, as a campaign political dodge, is trying to work up to a point where he can get into a war with Germany during a presidential campaign."

ASQUITH SAYS DISPUTES MAY BREAK UP GOVT.

(ASSOCIATED PRESS TELEGRAM)

London, April 19, 3:57 p. m.—In the house of commons today Premier Asquith stated that there were still some material points of disagreement in the cabinet and if they were not settled the result must be the breaking up of the government.

Although the cabinet was in session more than three hours today it was unable to reach an agreement on the recruiting problem and when the house of commons met, Premier Asquith was compelled further to postpone his statement until Tuesday next, saying that unless an agreement could be reached, the result would be a break-up of the coalition government.

The premier promised that there would be no further delay beyond Tuesday. In view of his promise Sir Edward Carson consented that his motion demanding service for all men of military age should stand over until the premier made his statement.

When Premier Asquith said that the cabinet was united in believing that the dissolution of the coalition government would be a national disaster he was loudly cheered, only a few unionists dissenting.

Canny Human Skill.

The ocean comes up and smashes our beaches and our pier; the wind blows down old houses and walls and trees; the rain fills up creek beds and basements and comes up over the floors of stores, with some damage to silks and sugar. It is all very big and scary and horrendous, but still the puny human climbs quietly into his dry street car, the antlike commuter, crawls aboard his chip sized ferryboat, the steamer swings and dances through the typhoon, and the cigar box office building laughs at the racket and the fuss. There is skill behind the car, the boat, the building; canny human skill that keeps cool and is not to be bluffed even by the winds and waters of the earth, and nature may lose its temper all it wants; it loses it quite fruitlessly.—San Francisco Bulletin.

Snubbing a Grand Duke.

When the Russian Grand Duke Sergius, who was blown to pieces with a dynamite bomb, was governor of Warsaw he thought it would be a good idea if the people of that city would contribute to a fund with which to buy sunflower seeds to be given to the Russian soldiers, who are very fond of chewing them. Sergius announced that every one sending money would be given a receipt, but those sending 1,000 rubles (\$510) or more would be thanked personally by himself. It is said that the response was excellent; but, though no one sent in 1,000 rubles and asked to be thanked personally by the grand duke, many sent in 200 rubles and asked for the receipt.—London Telegraph.

An Eye Test.

Most people believe that they see the same with both eyes. That this is not the case one can easily convince himself by the following simple experiment: Cover one of the eyes with a hand or bandage and let the experimenter attempt to snuff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching, under-reaching or putting the fingers too far to the right or left of the flame. With both eyes normal and open the accommodation for distance and direction is instantaneous.

PRES. WILSON'S SPEECH STIRS UP WALL STREET

(ASSOCIATED PRESS TELEGRAM)

New York, April 19.—Wall Street accepted latest developments in the Germany controversy with misgiving, judging from the weak tone of the stock market at the opening today. War shares and all the better known specialties broke from one to almost three points, the entire list reflecting hurried liquidation. Bethlehem Steel broke 19 points to 421.

The president's decision to submit the German situation to congress came as a great surprise to the financial district and commission houses with wire connections to important centers were almost overwhelmed with liquidation orders.

Great excitement prevailed on the exchange and many speculative holdings were abruptly closed out. Apprehension increased when it became known that the note to Berlin was already on the way.

Declines were extended in almost all directions, the munitions receding four to six points from yesterday's close.

The Sick.

Mrs. Clarence Jackson of Lawrence street has been confined to her bed for the past five weeks with a nervous breakdown. She is able to be about. Her sister, Miss Lottie Lynn who was caring for her, returned to her home near Purdy last Sunday.

Male Shipment.

Eastbound Pennsylvania passenger train No. 18 this morning carried two cars loaded with mules for a concern in Maine. The mules were purchased for use by the allies and will be shipped to the theater of war shortly after their arrival in Maine.

Editor of the Advocate:
I wonder if any of the people who are making themselves very funny and facetious over President Wilson's "watchful waiting" in his dealings with other nations ever reflect that it was Lincoln and Seward's patient and persistent—yes, "watchful waiting"—diplomacy that saved us from war with France and England during the four years of our great civil war. ESTABLISHED IN 1820

Entered as Second Class Matter March 10, 1882, at the postoffice at Newark, Ohio, under Act of March 4, 1879.

Let's see! Wasn't somebody named Burton announced as the Ohio Republican candidate for president? What's become of his boom since T. R. came back from Trinidad and Harding was made chairman of the Republican national convention?

In a formal reply to the informal charges of former State Printer E. A. Crawford, chairman of the True "Glues," filed with the governor, State Printer J. E. Cross gives a Roland for an Oliver. Though a feud of long standing exists between these two Adams county printers, Cross unofficially has given out that Crawford's present activity against him is because Crawford seeks Cross' job. The newspapers have quoted Cross as saying that Crawford ought to be satisfied with what he received in pay for his campaign work for Willis and not go pestering for patronage. Crawford is the only one of the "Glue" organization that has not been officially recognized by the administration.

In his address to a club at Ottawa, Governor Willis spoke in a mysterious way about the theft of a bill in the last General Assembly and intimated that if the truth were to be told the state would rock from lake to river. Well, he can't scare anybody. The episode he talks about was fully ventilated at the time. The resolution of investigation which the governor said was suppressed to save a scandal was aimed at Speaker Charles L. Swain and was a partisan device to injure his reputation. The speaker welcomed action but the authors of the resolution never pressed it. The governor is fully advised of the facts and he knew that the play was a bogus one because one of his first appointments was that of Mr. Swain, whom he made trustee of Miami University. There was no bill stolen in the last General Assembly and it ill becomes the chief executive of a great state to go about dealing in innuendoes to that effect.

One of the shuffling excuses for the failure of the fiscal policy of the present state administration is found in this paragraph sent out by the public supported press bureau in the Capitol: "The Finley-Cox organization seems to think that the farmer hasn't enough brains to realize when his taxes are higher from road and school improvements and when the raise is due to state expenses." This is part of Governor Willis' plan to blame the admitted tax increase upon localities and local officials rather than his administration. The last special session of the General Assembly called by Governor Cox was in operation only a few hours and reduced the state levy 50 per cent. And that is the last reduction in levies or expenses that the state has known. Under the

And now comes Dr. Thomas D.
Wood, professor of physical education at Columbia University, and a recognized authority on all matters pertaining to public health, with the

surprising statement that country children are less healthy than city children. He has made an unprejudiced study of conditions surrounding more than 10,000,000 children attending rural schools. It would certainly seem that conditions of food and hygiene should be almost ideal in the country. But, unfortunately, the average farmer seems to raise everything else more carefully than his children.

Did You Know
That ebony is found in the tropical parts of Asia and America? The best kinds are very heavy. are of a deep black and consist of heart-wood only. On account of its color, durability, hardness and susceptibility of polish, ebony is much used for cabinet work and inlaying and for the manufacture of pianoforte keys, knife-handles and turned articles. Ceylon ebony is distinguished from others by the inferior width of its trunk and its jet-black, charred-looking bark, beneath which the wood is perfectly white until the heart is reached. This variety is said to excel all others in the fineness and intensity of its dark color.

Nicaraguan Treaty.

The Nicaraguan treaty is regarded by many students of international law to be one of the most important entered into by this country. It guards the Panama Canal from rivalry and it gives the Navy Department a splendid base in Central America. More than all, it should assure increasing friendship with the countries of Latin America.—Indianapolis News.

Birds Desert Cities.

It is an admitted but regrettable fact that many of the sweet-voiced birds which were numerous at one time in and about the cities of the East are in evidence no longer. Some of them may be found in the parks, but how seldom we see the oriole, the wren, the swallow, and others too various to mention, one time nesters in our backyard trees! Robin Redbreast almost alone remains to dispute possession with the sparrow legions in city environs. If the Bird Day propaganda of the educational authorities bears fruit in the rising generation, if children shall be taught to study but not molest the birds, and adult man's hideous inventions for wanton destruction of them shall be put aside, it will have served a most worthy purpose.—Buffalo Commercial.

Japan's Opportunity.

Japan is no friend of republicanism in the abstract. Yet it is true that Dr. Sun Yat Sen remains comfortably at Tokio and directs the activities of the revolutionaries in Southern China. The doctor is tolerated, probably, because the Japanese bureaucrats believe any government in China is preferable to Yuan's despotism. And there must be a suspicion that the statesmen of Nippon are hopeful of a great domestic upheaval in China which will necessitate or excuse active Japanese intervention. It is the opportunity of the centuries, and the new Japan is the most successful of opportunist nations.—Cleveland Plain Dealer.

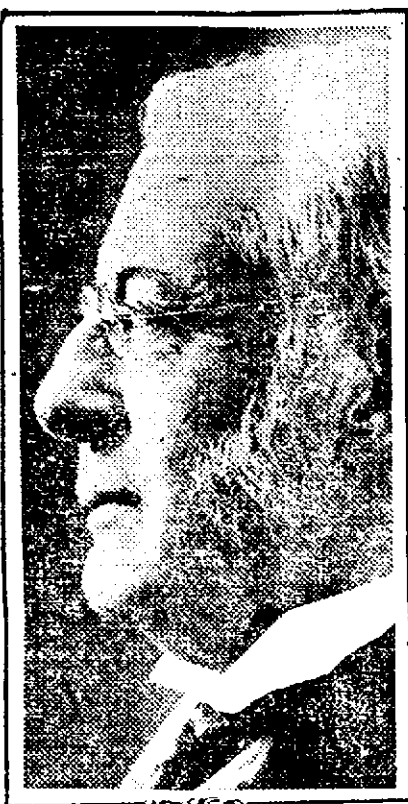

Spirit Photographs.

Print from ordinary negatives in the usual manner, printing-out paper, then fix the prints in a solution of 1 oz. hyposulphite of soda and 8 ozs. of water, and wash them thoroughly. While still wet, immerse them in a saturated solution of bichloride of mercury until the image disappears; then wash thoroughly. Be very careful, as bichloride is very poisonous. Soak some clean blotting-paper in the hyposulphite of soda solution and allow it to dry. To cause the spirit photograph to appear, cut a piece of blotting-paper the same size as the prepared print, and moisten it; then hold the apparently blank piece in contact with the photograph and, when it comes out, it will be clear and plain. And if washed thoroughly, will be permanent.—Popular Science Monthly.

Rippling Rhymes

Upon the farmers' rolling acres, the hired men, husky harvest makers, now push the gleaming plows; all day above their tasks they're bending and when the twilight is descending they milk three thousand cows. They rise before the dawn is breaking, and give their sweat-stained mules a raking, with brush and currycomb; with pails of swill they go a-realing, to feed the parkers, loudly squealing as they blow off the foam. They feed the calves and fatten the chickens, and milk more cows to beat the dickens, before the rise of sun; and while the rest of us are snoozing, the glory of the morning losing, their day's work is begun. The eight hour day? Don't josh or mock them; such levity would pain and shock them; some eighteen hours they toil, between the hour of their upsting, and their retiring, tired and sweating, and caked with fertile soil. We boast and praise the festive farmer, and say he is the honest charmer who keeps the nation fed; but, by the boosters, hards and saxes, of him who tills the land for wages, there's mighty little said.

FAMOUS EDUCATOR CRITICIZES SCHOOLS

Dr. Charles W. Eliot.

That American schools teach too little drawing, music and observational studies, such as agriculture and carpentering, and are trying to teach too much memory matter and textbook dogma, is the complaint of Dr. Charles W. Eliot, president emeritus of Harvard University.

WHICH WAY NOW?

Protect the Baby And Your Food

STORES which sell meat, groceries or fruit should not tolerate flies. Fighting them is difficult, but conscientious attempts should be made to keep these disease bearing insects away from human food, the same conscientious efforts that are made by a mother to keep flies from the baby and its milk bottle. Every possible means should be employed to exclude flies from creameries.

Shrapnel For Use In the Big Fight Against the Fly

EITHER man must kill the fly or the fly will kill the man. If there is no dirt and no filth, there will be no flies, and there will be fewer dead babies if there are no flies.

Wherever the fly goes disease and death follow. War to the death should be declared upon the little pest. His touch may put you in your grave.

There was a man in our town, And he was very wise. He helped to keep the typhoid down By swatting all the flies.

Little flies and little children cannot dwell in the same habitation. If the first aren't killed the second probably will be.

Make a renewed effort to fortify your home against the deadly housefly. By doing this you will check all dangers of having typhoid fever invading your home. During warm weather flies deposit the garbage cans and filth deposits and invade your home in increasing numbers, just when they are most apt to be reeking with the germs of dangerous diseases.

Cleanliness offers a solution for almost every sanitary problem. It will do more than anything else to solve the fly problem.

A process has been perfected in France for applying colors to glass by heat, so that stained glass windows can be made without fastening many pieces of glass of different hues together.

How a King's Royal Treasury Was Filled A Persian Tale

His royal nibs shoved back from his breakfast, consisting of Yankee bacon and buckwheat pancakes, and scowled at the coffee-pot. His scowl deepened as he counted four old tin kettle pots and realized that he had been wiping off his chin with a paper napkin that sold for 15 cents a hundred.

"Zounds, am I to be thus belittled!" cried the ruler of the sun, the moon and the seven seas. "What, ho, slave, come to me at once!"

A door of the room opened, and the royal duster appeared. "What is wanted, your majesty?" she asked.

"Call in my royal executioner," he shouted, "and then hunt up Murphy, my royal treasurer, from the city of Cork and tell him to come on the fly! There is going to be something doing here!"

"I'm here, then greatest of kings!" exclaimed Murphy, the royal treasurer, as he came rushing into the sacred presence.

"Murphy," said the king, "I am going to have your head!"

"Oh, king, what have I done?" was gasped out in reply.

"It is what you haven't done, thou blackguard and deceiver! When you came from Cork to be my royal treasurer

you boasted that my coffers should always be full to the brim. Has it ever been thus? Haven't I been hard ever since the day you landed from that tramp steamer? Haven't I had to do all the planning to raise the wind? Murphy, you must go around in future without a head on your shoulders!"

"Say not so, oh, mightiest!" wailed Murphy. "I can invent some scheme to fill your coffers in a week. All I need is a brainstorm, and I feel that one is coming on now."

"Murphy," said the king, "I was determined on having your head, but I will try you once more. You shall have till 6 o'clock this evening to think out a scheme."

Murphy made his adieu with trembling chin and shaking knees, and he retired to his room to accomplish the task set for him. After him came the assistant royal stoveblacker in hopes to borrow 50 cents till pay day. In an instant that long sought for scheme flashed upon the royal treasurer. The assistant was wearing a diamond in his shirt bosom as big as an overcoat button.

With a shout of "I am saved!" Murphy ran with all speed to prostrate himself before the king and exclaimed: "Your majesty, I have the scheme. A month ago a Yankee from that Yankee land beyond the sea came here with a big bag full of diamonds and began to sell them at such a low price that everybody could buy. Every washwoman in your capital city has as many as five diamond rings, and many of them have a sunburst as well."

"But how can that be, Murphy? Truly a diamond is a diamond and is worth its price?"

"But the fun of the thing, oh, king, is that they are not real diamonds, but only glass that sparkles. Now let us issue a royal edict that every diamond worn in your realm shall be taxed a certain price."

"But the people who have bought of the Yankee will at once claim that these so called diamonds are glass and thus escape the tax."

"I have looked out for that," said Murphy. "After three or four days, when the wearers of these false stones are chuckling over their escape from taxation, we will issue a second royal edict. We will say that certain persons having belittled your dignity by wearing jewels made of glass, all such glass shall pay double tax, and we will at once proceed to collect the same. Do you get me, O king?"

"Get you bigger than a house, Murphy," smiled the king. "It's the best scheme I ever heard of, and you have saved your head. By gosh, but no one except a man from Cork could have thought that out! You are a peach of a royal treasurer, and I shall continue you in that high office as long as you live and don't ask for a salary. Haste away, my royal friend, and write out those edicts for me to sign."

Paul Althouse together with Miss Marie Hertenstein will give the last concert of the Women's Music club series, April 25.

More and more each year the spring music festivals of the country take on a Metropolitan tinge when it comes to the selection of soloists. The Metropolitan Opera Company seems to be a storehouse of singers especially suited to the demands of festival managers. Paul Althouse, the American tenor of the forces of M. Gatti-Casazza, seems to lead all the Metropolitan engagements in the number of festival engagements. Close to the Althouse record comes Arthur Middleton, the eminent basso, and Margaret Matzenauer form a noble trio, and very often the three are engaged for the same festival. The big three-such is their designation at the greatest opera house in the world—invariably score individual successes and are noted for their team work, if such expression could be applied to these world famous singers.

MISS HANKO PREACHES GOSPEL OF GOOD FOOD—IS FAMOUS CAKE BAKER.

Do you desire to know how to make a failure on baking day? How to make cakes that are pretty to look at, delicious to taste, easy to make and economical in cost? This is one of the many interesting features to be included in the program of the Advocate Better Foods Better Homes school, at which Miss Emma Hanko will preside, next week in the High School Auditorium.

It will thus be seen that Miss Hanko's Better Foods Better Homes ideas are not freakish. Miss Hanko is not going to advise her hearers in the High School Auditorium next week how to live on nuts and herbs or a hot water diet, or a strictly vegetarian one, though she will bring out the values of eating many vegetables and tell just how to cook them. Fruits too will receive attention in her cookery course, but she will not ask the members of her classes to feed families entirely on raw fruits. Sweets have their place in the well regulated, properly balanced diet, according to Miss Hanko's ideas, and she will tell how to make good cakes and delicious pies and tarts. Meats too, are necessary and Miss Hanko knows how to choose economical cuts of meat and prepare them so as to get from them as much or more nutriment than from the more expensive cuts.

Is Good Teacher.

This food expert not only knows all about good foods and their proper preparation, but she is a most excellent teacher and has a real knack of imparting to others the knowledge she has gained from many reliable sources. Miss Hanko

will open the Advocate Home Economics school in the High School Auditorium next Monday afternoon at two-thirty. Her course will in-

RAIN ROCKS

There is good interest and attendance at Christian Endeavor and Sunday school here. Everybody welcome.

Don't stay away. "Because it rains"—That would not keep you from business. "Because company comes"—Bring them. "Because the church does not need you"—Never did the church more need you and your help. "Because you do not need the church"—You must look at the dirt six days. Take one to examine the clouds. "Because you would not be missed"—God misses you; "Because you have no influence"—The church goes preaches a sermon as long as his way to church.

Several from here went to Burdell chapel Saturday to hear Rev. C. C. Wise.

Mr. Roy Nesbit of Newark was home over Sunday.

Mr. and Mrs. Frank Thompson have gone to housekeeping in the Holton property, formerly occupied by Frank Royer.

Mrs. Charles Shotts and son Eugene called on Mrs. Jones Monday.

Miss Eva Weekly was the guest of Eva Thompson Sunday.

Mr. and Mrs. O. U. Danielson spent Friday evening with Mrs. Mary Danielson of Newark.

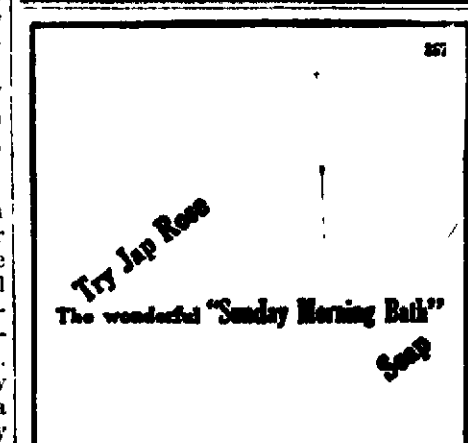

Mr. and Mrs. Foster Edwards and children were Sunday visitors at the home of Carl Ramsey near Martinsburg.

Misses Leota Miller and Zora Danielson spent Sunday with Mabel Edwards.

Mrs. J. G. Miles and daughter Hattie and Master Frederick Miles of Croton were recent guests of Henry Hillery and wife.

Reports speak very favorably of the Sparks circus which is billed to exhibit at Newark next Tuesday, April 25.

Extinction of the Petrovitch dynasty in Montenegro, no matter what the ultimate fate of that state may be, is predicted by political writers, who assert the Montenegrians are indignant over the surrender of King Nicholas to Austria. Annexation to Serbia, foreseen by many if the allies win, would be a reunion of two peoples very closely related in race.

The Queer Elephant Shrew.

One kind of African mice we seldom see or read about is the little elephant shrew. It is barely four inches long, but the trunk and shortened tail combined gives it another four to five inches. The fur, though drab instead of gray, is otherwise like that of a chinchilla, as also are its large and delicate ears, while both in the formation and the manner of using its legs it reminds one of a new species of miniature kangaroo. Again, at times, when in a sitting posture, it looks not unlike a fluffy young chicken which is trying to put out of sight a worm that has proved almost too much for it. Indeed, at all times the elongated and highly sensitive nose or trunk is very much like a dark colored and uneasy worm—that organ, which during wakeful moments is always slightly on the wriggle. It has swift leaping powers. It will tuck up its appendages and, like a ball, roll over and over in a straight line, and after a meal, which occurs at very short intervals and consists of several mouthfuls only, quite surprises one by standing stock still, apart only from a gentle quivering of the trunk.

A Certain Shot.

The aged, wrinkled gamekeeper whistled his dog and scratched his twisted head before turning to the company.

"Yes, sir," said he: "the rummiest master I ever had were old Parson Sharpe. As blind as a bat, he were."

"And did he go shooting?" exclaimed the audience in the village workmen's club.

"Shooting?" replied the gamekeeper, with a snort of contempt at the question. "Ay, that he did. Yes, he shot regular. When he was in the woods and anything rose I'd cry, 'Birds, sir!' and then I'd run behind the parson and the dogs?" asked the audience.

"Then the old gen'd blaze away with both barrels."

"And did he ever hit anything?"

"Oh, yes! Sometimes it wur a cow or a horse or a pig or a dog. But he always hit something. He were a certain shot, he were!"—London Answers.

Spiking the Guns.

The expression "spiking guns" is a survival from the day when all that was necessary to put a gun out of action (provided, of course, that you had access to it) was a large nail or spike and a hammer. You simply drove the nail into the touch-hole at the breech. If the nail was long enough to turn round at the end on the bottom of the bore so much the better. It is just as simple, perhaps simpler, to put a modern gun out of action. All you want is a hammer. The breech block of the modern gun is held closed by screw threads. After the breech block is shut on the shell a turn of two or three inches engages the threads. By knocking a bar on these threads you prevent them engaging. Any attempt to fire the gun without the breech block being perfectly closed would, of course, be of material assistance to the enemy.

Office Lawyers.

"Office practice is what the average lawyer seeks for now," remarked an attorney, "and that is the business that makes the largest returns for the least waste of tissue. More money is made nowadays by keeping clients out of litigation and free from the dangers of the law's delay than by defending them, even successfully, in court. It is safe to say that there are some 6,000 lawyers who are making a very good living in New York from law, business that rarely or never takes them into court and that there are a large number of lawyers who from their counsel work and directing great enterprises and corporations, advising and guiding princely clients, take in each year princely—yes, even fabulous—amounts."—Lawyer's Diary.

Milady's Boudoir

Surf Bathing Lore.

Only the woman in good health, with a strong heart and normal kidneys should attempt surf bathing this summer. Never bathe, either, immediately after eating, wait at least two hours. There should be a glowing reaction when one comes from the surf, but when we are cold and fatigued it is usually a sign that the sea bath has been of too long duration or that it never should have been taken.

For the average person a half hour bath is quite sufficient, but different people may require less or be able to enjoy the bathing for a greater length of time. Much depends upon one's own feelings. People with weak hearts should by all means consult their physician before attempting to battle against the rough and strong waves.

When coming from the surf great care should be taken. Have a warm sweater handy and throw it about the shoulders. If there is a hot sun upon the beach it is beneficial to lie upon the sand until dry, but if the

day is cold it is best to don the sweater and walk quickly to the bath house, dry and dress at once.

Avoid excited breathless haste in so doing, however. If the day is warm there is still a slight chilliness felt, perhaps from staying in the water too long, there should be some mild exercising on the sands for the purpose of promoting circulation and warming the body.

Still another way of stimulating the circulation is to go through a course of ordinary school gymnastics in rhythmic count, preferably with some other persons or persons, so that an element of fun may be introduced into the performance and the enjoyment of it increased. Remember that when you are doing anything for health or benefit to you physically or mentally you must enjoy it.

Can't Believe All You Hear.

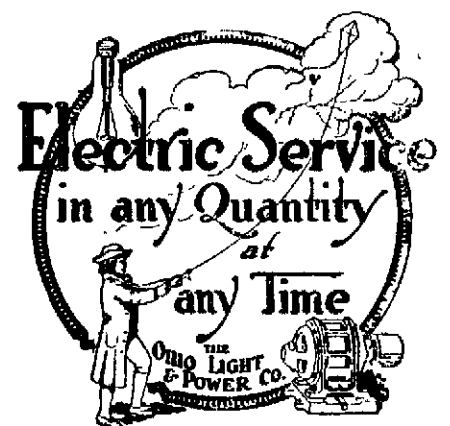

Anxious Railway Guard (as the train stops at the station)—Excuse me, sir; but did you happen to hear cries for help as we came along? The Young Officer (delighted)—Oh, by Jove! Could you hear me? I was just practicing the command "Halt!"—Sketch.

Our Boys and Girls

In a baby's foot a straight line can be drawn from the center of the big toe to the middle of the heel. Upon the preservation of this line depends the well shaped foot. The wearing of shoes with pointed toes or shoes that are too short will cause the toes to converge to a point at the center and the joints of the big toes to be enlarged. It is now generally acknowledged that toeing out will cause a distortion of the feet and that the straight foot is the ideal.

If you have the child stand with the feet pointing forward parallel to each other, the weight of the body will be straight and each foot will assume its normal and beautiful line. On the other hand, the foot which rests unevenly upon the ground disturbs the balance of the entire body, and the results are bunions, ingrowing nails, fallen arches and callouses and may lead to curvature of the spine.

It is estimated that there are 170,000,000 real Negroes in the world.

Mr. Merchant:—

You know these are reasonable reasons why you need an

ELECTRIC SIGN

Because, an Electric Sign tells who you are, what you sell and where you are located.

Because, spasmodic, occasional, "once-in-a-while" advertising has only temporary, fleeting advantages and in the long run, costs many times the maintenance of a sign. The time to advertise is all the time and only an Electric Sign does it.

Because, it shows you are not a "back number," but that you are in line with progress and in the band wagon every minute.

Because, people naturally seek the bright places and an Electric Sign will make any store more attractive.

Because, you want your town to look progressive and nothing adds more to its appearance than light after night.

We have with us at the present time a representative of one of the largest sign manufacturers in the United States, who will gladly call on you and submit designs without obligations, on your part. He will also tell you how to get a sign on terms so reasonable that you would scarcely miss the money.

SHORT SESSION SCHOOL BOARD LAST EVENING

A short session of the board of education was held last evening. Hon. Wm. E. Miller, president of the board, presiding. Other members present were Clerk Benj. Montgomery, vice president J. M. Mitchell, S. W. Haight and W. C. Christian. After the reading of the minutes of the previous meeting the following bills were allowed and ordered paid: O. D. Holler \$6.30; Johnson Service Co., \$10.24; Kent Bros. grass seed, \$4.25; The Newark Electrical Co., \$4.11; Jasper Dunlap, trimming trees, \$3.25; Samuel Dunlap, labor, \$2.60; C. E. Boggs, 65 cents; Scheidler Machine Co., \$5.50; Universal Supply Co., \$6.75; Geo. Vogelemeier, 23 loads of dirt, \$23.65; The Coulter-McKay Co., supplies, \$24.90; Kent Bros., trees and shrubbery, \$40; Fountain Johnson, hauling garbage, \$2.50; Howard Beener, 60 cents; The Licking Creamery Co., \$1.90; The Licking Laundry, 91 cents.

The application as an instructor for the athletic field was received from Wilfred G. Jones, of Wooster. Jones stated that he was eighteen years of age and had much experience in athletics. The application was placed on file.

Mrs. Elizabeth Connell, Miss Miller, Mrs. Mary Andrews and Miss Helen Uhle were named as the school enumerators. They served last year and gave excellent satisfaction. They must do the work the last two weeks in May and will receive three cents per name in taking the enumeration, making their compensation average about \$45 each.

Supt. Wilson Hawkins in addressing the board, outlined plans for the annual commencement exercises. Eight members of the class will be chosen to deliver orations and the diplomas will be presented by the president of the board, Hon. Wm. E. Miller. There are 125 members this year in the graduating class.

Rev. Don D. Tullis will be invited to deliver the Baccalaureate sermon on Sunday afternoon, June 4, in the high school auditorium. A special program will be prepared and the general public will be invited.

Supt. Hawkins was authorized to purchase 90 chair bottoms and 8 backs to replace that number in the high school auditorium.

Supt. Hawkins informed the board that fifty young trees had been planted in the White Athletic field on Arbor Day by high school boys and that the trees had been furnished free of charge by John Pittser, of south of the city, the boys digging them up and transplanting them. Mr. Pittser has also made the school an additional present of 200 young trees for use next year, the high school boys to dig them up and care for them.

Supt. Hawkins upon his request was authorized to hold a patrons week May 15, at which time the parents of pupils will be invited to inspect the schools. State commissioner of schools F. B. Pearson will deliver an address on one of the afternoons at the high school auditorium. Patrons week has proven very successful in the local schools. Two years ago 1,000 visitors were registered. Last year there were 2,500. It is expected that Patrons week this year will exceed even that figure.

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

CULVER OFFERS CAMP TRAINING TO NEWARK BOYS

Mr. Wm. A. Miller of the Culver Military Academy, Culver, Indiana was in the city Tuesday and laid a proposition before Supt. Wilson Hawkins by which Newark boys of the high school may, at a very little expense, secure two weeks military training at the Culver camp which will be held May 15 to 29th.

The purpose of the camp is to demonstrate to the individual boy as well as the country at large the value of military camps of instruction. It is believed such camps will stimulate in these boys an appreciation of discipline, a pride in efficiency and a heightened sense of duty that will make them more useful citizens in any walk of life. At the same time it will give them some elementary military training that will enable them to add their part to the military efficiency of the country.

Last year 200 high school boys of Indiana attended the camp which was an unqualified success. It is highly endorsed by Gen. Leonard Wood, who came from New York to inspect the camp.

Mr. Miller said the work was extended this year to include Ohio and Illinois and that in towns the size of Newark, twelve boys would be taken. The cost of the training consists in the railroad fare to Culver and return, and subsistence amounting to \$11.25 and a uniform \$6.50.

Mr. Miller said that in case twelve Newark high school boys were selected that the cost of four would be paid by The Culver Military Academy, in other words for every two boys sent a third would be entitled to go at the expense of Culver Academy.

In talking with Prof. Hawkins it was found that it would not be possible to send any boys this year but that should the camp be continued another year suitable arrangements could be made by which possibly six or more Newark boys could participate in this training.

SOME GOOD NEWS REACHES THE KIDS

Castor Oil Prices Are Up—And Going Higher.

The war in Europe has brought rejoicing in one quarter at least.

Castor oil prices are steadily advancing, along with the prices of other chemicals, and further advances are promised.

The medical profession never has discovered a substitute which had the healing properties of good old fashioned castor oil, and millions of gallons are used every year in the treatment of disorders of the stomach and intestines.

The unpleasant taste—the only drawback to the universal use of castor oil by both children and adults—has been overcome by a preparation called CASTOR-JEL.

94 per cent pure castor oil whipped into jelly form and flavored with orange, which may be had at the same prices that were fixed before the recent sharp advances in castor oil.

On sale at R. W. Smith's and R. F. Collins' Drug Store, The Castor Products Co., Cleveland, O.

TO REMOVE DANDRUFF

Get a 25-cent bottle of Danderine at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff; stop scalp itching and falling hair.

MARTINSBURG

The business men of this community are to be congratulated upon their successful effort in securing a pike to Utica. The state highway department is advertising for bids which will be opened April 28. The road will be of water bound macadam construction 18 miles in length running from the west corporation line to the Knox Licking county line. Licking county will be asked to finish road into town. The business men of that village will labor for the completion of the road into town.

The ladies of the Presbyterian church will give a parcel post sale in the church Saturday evening, April 22. Admission and luncheon 10 cents. Everyone is invited.

SPOKE PLAINLY ON THE SUBJECT

TANLAC AS IT ALWAYS FULFILLED ITS PROMISES.

Mrs. Martin Thinks It the Only Thing That Would Have Relieved Her.

Mrs. Sarah Martin, who resides at 527 Granville street, is emphatic in her statement of the merits of Tanlac. She says: "I had the lagrippe for seven weeks, was weak, nervous and run down, and stomach trouble, had no appetite and slept poorly and was weak and nervous. Tanlac is a fine medicine and I do not believe I ever would have gotten straightened out without it. It relieved my stomach trouble and made me feel better and stronger. I recommend it."

Tanlac aids in rheumatism, catarrh, liver and kidney trouble and is an excellent spring and nerve tonic. Tanlac is demonstrated at Hall's drug store and is for sale at Johnstown by C. S. Howard, Croton by J. W. Haines, Granville by W. P. Ullman, Hebron by the Hebron Drug Co., Utica by P. H. Richardson and Pataskala by J. R. Strins. (Adv.)

GULART ON ROAD EARLY; CROWD WATCHES WORK

Gabe Gulart, of Milwaukee, who is training in this city for his coming bout with Denver Jack Geyer at Columbus, April 24, worked out before several hundred fans last night at the Music Hall. This morning he was on the road bright and early and before the majority of citizens were astir, had completed the first lap of his day's training.

The bout is to be staged at the East State street Coliseum by The Empire Athletic Club, a newly organized club, and will be the first bout promoted by the new club.

The bout between the pair will be a chance that Gulart has been after for some time. In his first bout with Geyer at Ottawa he had a trifle the worst of the argument, according to reports, but on the next meeting he more than held his own. Reports from Lima, where the match was staged, give Gulart and Geyer credit for engaging in one of the bloodiest and fiercest bouts ever seen there.

Gulart will work out with Bowser, Fritz Howarth and several other men at Music Hall again tonight and the general public is invited to watch the work.

COLUMBUS HAS BIG OPENING OF THE A. A. SEASON

The Columbus Senators of the American Association opened their season yesterday with a 4-0 win over Kansas City. Tom George who worked on the mound for Columbus today has the distinction of winning his first game and the only shut out game played in league's opening.

Visitors from all over Central Ohio were guests of the Columbus Chamber of Commerce at a luncheon at noon yesterday and later were driven to the ball parks in automobiles. The Ohio State Journal, working in conjunction with the Columbus Chamber of Commerce, had for its guests many newspaper editors from all parts of the state.

At the Chamber of Commerce luncheon, given at the Athletic Club by the entertainment committee that is headed by E. A. Reed, Max Reiser acted as toastmaster. Mayor Karb gave an address of welcome. Secretary Gillette of the Chamber, assisted by Robert O'Brien and Don Martin, helped make the visitors feel at home. A number of Newark baseball fans attended the game and many held invitations to the Chamber of Commerce luncheon. Mayor Karb in a brief address at the home plate, laid down the law to the Senators. "Stay ahead of Toledo at all hazards," he said. "In Toledo Monday night, the Toledo mayor enjoin Freshman's players to be sure to race above Columbus. So again, as in former years, Columbus and Toledo will be fighting it out for honors."

HIKERS TAKE ADVANTAGE OF FINE WEATHER.

With the coming of the spring weather, has come a desire among a certain group of young athletes (?) here to get in to the country away from the busy whirl of the city. Yesterday morning Charles Waltman, Bob Sheppard, Lester Lucas, Guy Risher and John Bergomo, the new followers of Weston, made their initial trip into the country.

Preparedness was shown by the party by making arrangements for holding all the ambulances in the city of the job, in case one of the workers developed "cold feet." The trip was made without any mishap and another was scheduled for this morning.

When the advance guard arrived at the starting point, the McDaniel's restaurant this morning, one of the squad was missing. John Bergomo. He was found by members of the party, still in bed and pleading a sore foot. All efforts to dislodge John from his comfortable quarters, were unavailable and the second lap of the "Endurance Society," was begun with one member shy.

PURITY

The marriage of Miss Pearl Bebout and Mr. James Taylor was solemnized on Tuesday, April 11, at the home of the officiating minister, Rev. Long, pastor of the Church of Christ in Mt. Vernon. They were accompanied by the bridegroom's father, Mr. Frank Taylor of Purity. The bride is a daughter of Mr. Virgil Bebout of near Ulica. After the ceremony, Mr. and Mrs. Taylor went to their new home, which was already for occupancy, on a farm near Appleton.

Mrs. J. B. Colville and brother, Mr. Perry Van Winkle, visited the latter's wife at the City Hospital where she recently underwent a serious operation, Sunday. Other visitors who called on Mrs. Van Winkle that day were, Mr. and Mrs. Vitalis Van Winkle and daughter, Miss Anna Van Winkle, Mr. and Mrs. V. M. Harris, Mr. and Mrs. George Stone, two Misses Keller and Messrs. James and Ira Evers. Mrs. Van Winkle is recovering nicely and expects to be able to be removed next week to her new home in St. Louisville.

Mr. and Mrs. Harvey Colville, Mr. and Mrs. Bert Evans and son Wayne, and Miss Luella Harris were Sunday guests of H. B. Oldaker and family.

Mr. and Mrs. Clarence Smith and Miss Lola Wilkin were Newark visitors Saturday.

Miss Gladys Hamilton was a guest at the home of Mr. and Mrs. John Popham, Sunday.

BACK TO AUSTRIA CRIPPLED FOR LIFE

A lone Austrian soldier, invalided home, is seen seated on the steps of a railroad carriage at Hallsberg, Sweden, waiting for the train to start for his native land. Through the courtesy of the Swedish government he has been exchanged, being listed as unfit for further service. Leaving his home a hale, hearty man, he returns a cripple, a wreck of the war who must begin life anew; crutches must henceforth serve as substitutes for the missing members.

Ohio Mothers Abolish Old Forms of Stomach Dosing

For Croup and Cold Troubles They Are Now Using the New Treatment of Antiseptic Vapors and Fresh Air That Replaces Internal Medicines, Poultices, Plasters and Flannel Jackets.

You Just Rub It On Over Throat and Chest—Relieves by Inhalation and Absorption.

Most people take too much medicine. Nowadays we know that nearly every medicine is a poison if taken in sufficient quantities, and that the less medicine we take the better for our digestion. This is particularly true for children. Still croup and cold troubles require some form of treatment—they can not be neglected. This problem is solved by use of the "outside" application—Vick's Vap-O-Rub Salve.

In the South it is universally used in place of internal medicines for all forms of cold troubles, from head colds, asthma and catarrh, down to deep chest colds, sore throat, bronchitis, grippe or incipient pneumonia. You just apply it over throat and chest and cover with a warm flannel cloth. Leave the covering loose around the neck as the body heat releases the ingredients in the form of vapors. These medicated vapors are inhaled, with each breath, all night long, loosening the phlegm and opening the air passages. Here is what Ohio people say:

CINCINNATI, OHIO, Mrs. Fred Callahan, 1029 Gregory St., writes:—

"I have four sons, aged from sixteen months to seven years, and find that your remedy has done them a

world of good in regard to their suffering from croup and heavy colds. My sister, who is subject to catarrh, gets better relief from your remedy than from anything she has ever used.

COLUMBUS, OHIO, Mrs. Irene Alkire, 773 W. Broad Street:—

"In regard to Vick's Vap-O-Rub, I can truthfully say it is all and more than it is advertised for. When I received my jar it was at a time when I wanted something, and wanted it badly, for my boy came home from school with croup, and I did not expect anything else than to be up all night. But thanks to Vick's we both slept well all night."

DAYTON, OHIO, Mrs. Thos. Johnson, 1834 Germantown Street:—

"My little boy was taken with a severe case of croup a few weeks ago, and after trying everything I knew of without finding much relief, my druggist gave me a jar of Vick's Vap-O-Rub which I used with splendid results. I also find it a fine remedy for headache, and shall always keep it in my home hereafter."

Vick's Vap-O-Rub comes in three sizes, 25c, 50c or \$1.00, at all drug stores.

WARDEN TO ADD 200 ROOMS TO FT. DODGE HOTEL

When T. G. Warden of Chicago and F. G. Warden of Des Moines complete their proposed two hundred room addition to the Wakhonsa hotel, on their newly purchased property on First avenue south and Tenth street, Fort Dodge will have the finest hotel of any city its size in the United States, says the Fort Dodge Messenger.

This was the statement made by F. G. Warden of the Warden Hotel company. Both the Wardens are in the city today finishing up the deal by which they purchased the Cullen and Buell properties on First avenue south and Tenth street. They pay \$25,000 for the Cullen corner, or \$416.66 a foot on First avenue, and \$15,000 for the Buell lot just west.

Preliminary plans allow for nine storerooms on the first floor. Five of these will face Tenth street, one will have a corner entrance and the other three will open off First avenue south.

There will be fifty-two rooms, each with bath, on each floor. A large inner court will make them all light and airy. The high elevation of the property and the attractive surroundings will add to their desirability. The number of floors has not yet been decided. No less than three nor more than five will be built. The foundations will be erected strong enough to add more floors if necessary.

The addition will be similar in style to the Wakhonsa hotel and

will be connected with it by a passage way over the alley.

"In building this big addition we are looking forward a few years," said F. G. Warden. "Just now we have all the accommodations we need. We believe, however, in being prepared for the future. The time is coming when we will need more room. Fort Dodge is a solid city with a good substantial growth. We do not anticipate there will be any 'boom' here, such as has proved so detrimental in other Iowa cities. The people around here are prosperous and pay their bills."

One floor will be built for a convention hall or ball room. Such an addition would be a great adjunct to the social life of the community and will be called into use by the many conventions held in Fort Dodge during the year.

D. A. R. BALLOT FOR OFFICERS AT WASHINGTON

WASHINGTON, April 13.—Daughters of the American Revolution, in annual session here, were balloting today for the election of officers other than president-general. Officers to be chosen were a corresponding secretary, ten vice presidents general, an honorary vice president-general and an editor of the D. A. R. publication.

The results of the balloting probably will not be announced before late tonight.

A discussion of conservation and reports of committees were on the program for the remainder of today's session. Tonight will be observed as "preparedness evening."

Facts are stubborn things; almost as stubborn as the people who don't believe them.

ELKS SUBSCRIBE FOR MEMBERSHIP IN ORGANIZATION

The local lodge of Elks at their meeting last evening voted to purchase two memberships in the new Chamber of Commerce. A resolution was also introduced giving the movement the hearty support of the lodge and in a discussion of the subject it was the consensus of opinion that the lodge membership should "boost" the project by giving it the active co-operation of all Elks.

Three applications were voted upon favorably and candidates will be initiated at the next meeting. Several new applications were received. After the business session a social time was held in the club rooms, the affair being in charge of Colonel Billy Hohl, the club steward, who did the honors in his usual cheery manner.

PHYSICAL TRAINING FOR PREPAREDNESS TO BE DISCUSSED

ASSOCIATED PRESS TELEGRAM Cincinnati, April 13.—Preparedness through physical education is the general topic to be discussed by the delegates attending the twenty-third annual convention of the American Physical Education Association which began here today.

The necessity for physical training for children will be discussed by Randall B. Warden, Newark, N. J.; Wm. A. Stecher, Philadelphia, and A. E. Kindervater, St. Louis, supervisors of physical training in the public schools in their respective cities.

Different phases of preparedness in schools and universities will be treated upon by William A. Ocker, Indianapolis; E. H. Arnold, New Haven, Conn.; Miss Florence A. Somers, Cleveland, O., and others.

Dancing demonstrations by pupils of the physical education department of the public schools of Cincinnati will be among the entertainment features arranged for the visitors.

The final session of the convention will be held Saturday.

THE RAILROADS

Fast Time Is Made.

Preparedness on the part of Southern Railway to serve the Government should this country be involved in a state of war was shown in the movement of the Eleventh Cavalry in seven special trains from Ft. Oglethorpe, Chattanooga, to the Mexican border, declares the Southern News Bulletin in its current issue.

"Orders for the movement were received at 2 o'clock in the morning and by breakfast time a sufficient number of cars had been assembled at the fort for loading the heavy equipment, and by 4 o'clock in the afternoon the first section was made up and ready to depart. The trains were operated on fast schedule, making only stops necessary for feeding and watering the horses, and covering the distance of 1,463 miles to El Paso in about 60 hours, or 60 hours' actual running time, which was several hours less than the time the Government had allowed.

"It required a total of 122 cars to make up the trains, 27 of these being tourist sleeping cars, 52 stock cars, and the remainder being baggage, flat and freight cars."

All-Steel Sleepers.

When the new all-steel Pullman sleepers were put on the Cincinnati-Columbus trains of the Baltimore & Ohio system this week, the company had completed its plan of having all-steel cars on every train in and out of this city. The train to Columbus leaves Cincinnati at 2:30 a. m., and westbound leaves Columbus at 3:55 a. m. On Sunday morning the Columbus train leaves Cincinnati at 1:45 a. m.

Will Buy Box Cars.

The New York, Chicago and St. Louis railway (New York Central lines) today was authorized by the Ohio public utilities commission to issue \$1,250,000, equipment trust certificates to buy 1000 additional steel box cars.

Cars Derailed.

Baltimore and Ohio railroad traffic was tied up about 40 minutes last night on the Lake Erie division, when two empty freight cars were derailed, near Fredericktown.

Ankle Injured.

Frank King, Baltimore and Ohio machinist, is confined to his room, 58 Oakwood avenue, suffering from an injury to his left ankle, sustained while at work. A wrench is said to have fallen against the foot.

"Dead men tell no tales," quoted the Wise Guy. "Which may explain why a widow finds it such an easy matter to get married again," added the Simple Mug.

WOULD HAVE U. S. OWN BEEF PLANTS

Governor Stuart.

Governor Stuart of Virginia, who raises cattle when not engaged with executive duties, told a house subcommittee that stock raisers had lost money in the last year largely because of the lack of competition among beef packers. He suggested that the establishment of government owned slaughter houses and markets where the producer and consumer would meet, would go a long way toward solving the troubles of both.

Theatres

Alhambra, Tonight and Tomorrow. A man's losing fight against the craving for drink, his fall to the depths, his rise through the spirit of revenge, and ultimate triumph through love, form the basis of "The Unpardonable Sin," the new World Film feature in which Holbrook Blinn, the noted dramatic screen star, will be seen at the Alhambra, tonight and tomorrow.

Gem Theatre, Tomorrow. "Lords of High Decisions," a remarkable drama of father against son in the great social conflict, will be shown at the Gem theatre tomorrow afternoon and evening. The drama is based on Meredith Nicholson's famous novel and features the celebrated actor, Cyril Scott.

"Undine" at the Mazda. A picture which has carried the country by storm and is being shown to packed houses everywhere will be shown the first time in Newark Thursday and Friday at the Mazda. Ida Schall the perfect woman appears in the magnificent spectacle, which is adopted from the famous story by Henry Otto. "Undine" is the most talked of photo play in America today.

day) evening at 7:30 o'clock.

Thought Concentration.
Professor Elmer Gates performs a
very interesting experiment by im-
mersing his hands and arms to the
elbows in separate vessels filled with
water just to the point of overflowing.
By withdrawing his thought absolute-
ly from one hand and concentrating it
on the other he so expands the blood
vessels in the latter by sending an ex-
tra supply of blood to it that the wa-
ter in the vessel in which it is over-
flows quite perceptibly. To further
prove this power of thought concentra-
tion he transfers the thought from
one hand to the other without chang-
ing their positions until the other ves-
sel overflows.

Jamaica's Booby Eggs.
Trade in booby eggs is one of the
sights of Kingston, Jamaica. Long ago
the British seamen gave the name
"booby" to several of the species of
gannets, because these fowls are re-
garded as stupid. The eggs are gath-
ered in vast quantities on the islets at
certain seasons of the year and taken
to Port Antonio by the boatload. The
arrival of a boat with booby eggs is
the occasion of no little excitement
among the negro women, who buy
them by the box and then sell them by
retail chiefly in Kingston, though they
are also sold in other towns on the is-
land. Though sold mostly by the doz-
en to housekeepers, booby eggs are also
peddled, hard boiled, on the streets of
Kingston, salt and pepper being pro-
vided that the purchasers may eat the
eggs at once. These eggs are about
two-thirds the size of an ordinary
hen's egg and are quite palatable.

The Part of Wisdom.
Everybody in Middle Bay knew that
Mrs. Captain Liscomb was talking
about making a visit to her married
daughter in Cincinnati. She had been
talking about it for two years, but age
and the natural timidity of a woman
unused to travel had postponed the
great event from month to month un-
til the neighbors began to wonder
whether it would ever come to pass.
So one morning, when Uncle Billy
Evans met Captain Liscomb in Eccles'
store, there was a twinkle in his eye
as he asked:
"When's Miss Liscomb going out to
Ohio, Daniel?"
"Don't ask me!" returned the cap-
tain, a little peevishly. "I don't know
nothin' about it. If I tell her to go
she says I want to get rid of her. If
I tell her to stay at home she says
I'm mean! I ain't sayin' a single
word!"—Youth's Companion.

Bulldogging a Steer.
Perhaps there is no contest that is a
greater tax on human endurance than
that demanded by "bulldogging" a
steer, and the "bulldogger" must go it
alone. The pony is as great a factor
as the man, for when once the lasso
rests over the horns of the range ani-
mal all depends on the rapid way in
which the mustang wheels so that the
trailing rope will trip the steer. When
the steer is on the ground the plucky
pony must keep the rope taut. The
range rider leaps off and with a length
of rope ties the steer's four feet to-
gether. Time is then called. Unless he
has completed all these operations from
the word go in less than three minutes
he is not deemed fit to enter the finals.
As a matter of fact, one contestant cut
the time to 29 seconds, a world's record.
—Sunset Magazine.

Begging the Question.
The phrase "begging the question,"
or in Latin "petitio principii," signifies
the treating of a proposition as a fully
demonstrated fact when it is actually
only a premise or statement brought
forward and not yet proved. In other
words, to beg the question is to as-
sume something to be true, in order to
evade the task of bringing forward the
necessary argument to show its truth.

sults of the morning's work which

ready to instruct its delegates to the
general body.

FORCES IN MEXICO ARE CONCENTRATED; NATIVES STARVING

(ASSOCIATED PRESS TELEGRAM)
El Paso, April 19.—Confirmation
of reports that the American expedi-
tionary force was being concentra-
ted at three points in Mexico, prepar-
atory either for the withdrawal of
the troops or the organization of a
new and more extensive campaign,
was received here today from Mexi-
can sources.
It was said that General Pershing
had withdrawn all outlying detach-
ments south of Naniquipa and that

DAY IN CONGRESS

(ASSOCIATED PRESS TELEGRAM)
The congressional business for
today is thus summarized:
Senate.

Met at noon.
Considered taking up good
roads bill.

House.

Met at 11 a. m.
Voted to insist in conference on
its free sugar repeal bill indefi-
nitely postponing suspension of
the sugar import tax.

Met in joint session with the
senate to be addressed by Presi-
dent Wilson.

In the neighborhood of 3,000 men
were camped at San Antonio, 12
miles west of Cusuhiriachic, and
that a force estimated at almost dou-
ble this number was being concen-
trated near Naniquipa.

The belief that the American
troops are about to leave Mexico is
widespread among the Mexicans in
Juarez and has completely changed
the attitude of the people, who, af-
ter the Parral incident gave indica-
tions of marked hostilities toward
Americans.

Supplementing reports that the
political situation in Mexico was of
minor importance in comparison with
the economic condition and the rav-
ages of typhus epidemic which has
been sweeping through the central
states, an American mining official
received messages today that relief
was urgently needed if thousands of
the people in Durango, Coahuila,
Aguas Calientes, San Luis Potosi,
and Zacatecas were not to perish.

These messages stated that there
were between 4,000 and 5,000 cases
of typhus in the city of Aguas Cal-
ientes and a similar proportion in
almost every city of importance in
central Mexico, including Queretaro.
The Carranza officials are making
strenuous efforts to send food into
the stricken districts and to check
the ravages of typhus but the dis-
turbed conditions in the country are
proving a serious handicap.

SKULL FRACTURED IN A FALL FROM AN AUTOMOBILE

Brandon Painter, 70, residing near
Homer, was probably fatally injured
when he fell from an automobile near
his home on Tuesday evening.
Mr. Painter had been out riding with
some relatives and in attempting to
step from the running board of the
automobile he lost his balance and in
falling struck his head on the pike.
He was picked up unconscious and
Dr. Colman was called and he brought
him to the Newark Sanitarium, where
he assisted Dr. J. G. Shiber to perform
an operation. Mr. Painter had suffered
a fracture of the skull and his condi-
tion is regarded as very critical.
A portable electric radiator, in ap-
pearance like a steam radiator,
which has been invented, is com-
posed of a high resistance coil, sub-
merged in an insulating non-freezing
liquid which circulates when electric-
ity is turned into and heats the coil.

AUTO OWNERS MUST GET 1916 LICENSE TAGS

Chief of Police James S. Sheridan
today issued a warning to all au-
tomobile owners in the city of Newark,
regarding the automobile licenses for
1916, when he made the following
statement:

"All automobile owners driving
car with a 1915 license after next
Monday, April 24, will be arrested
and prosecuted."

For the past several months Chief
Sheridan has had considerable trou-
ble in getting some of the Newark
automobile owners to place a 1916
license number on their cars. The
owners gave the excuse that they
could not secure this year's license,
but had ordered them.

Yesterday while the chief was in
Columbus he paid a visit to the
license bureau and found that orders
for license received by that depart-
ment on the 15th of the month had
been filled. This investigation led
to the above statement and orders
being given every patrolman to keep
a strict vigilance for old number
license tags.

"I found out that the licenses
could be secured and now we are go-
ing to see that the law is obeyed, or
somebody is going to get in a great
deal of trouble," Sheridan said to-
day. "I will issue orders to all my
men to see that no 1915 licenses are
being used and if they find a car
with a last year's license, they are to
arrest the driver."

Chief Sheridan has made April 24
the date for the new order to go in-
to effect, so that delinquent owners
can secure a new license before that
time.

Rev. Mr. Greene is Now Pastor at Woodside Church

At the meeting of the Zanesville
Presbytery concluded at Zanesville
Tuesday afternoon, Rev. D. A.
Greene was given and accepted a
call to the Woodside Presbyterian
church, Woods avenue and Selby
street. The sum subscribed by the
congregation was supplemented from
other sources and a comfortable sal-
ary secured.

Rev. Greene has been the "Stated
Supply" of Woodside for nearly four
years, also supplying Fairmount,
but will be installed as pastor for
full time on Friday evening, May 5.
By a committee of the presbytery.
There will not be regular morning
services every Sunday at Woodside.
A theological student, licentiate,
Ross E. Conrad will be given a
hearing at Fairmount.

FULTON LAW IS UPHELD BY THE SUPREME COURT

The supreme court by its decision yesterday denying a writ of mandamus to compel Charles Q. Hildebrand as head of the election machinery of the state to recognize the Sprague redistricting bill, defeated by the voters in a referendum election, means that the Fulton redistricting bill will continue to be in force unless the matter be carried to the United States Supreme Court at Washington and reversed by that body, which is hardly probable.

The Fulton congressional redistricting law was enacted in 1913, the measure being drafted by Hon. W. D. Fulton of this city, at present a candidate for the Democratic nomination for secretary of state. Mr. Fulton devoted much of his time to the drafting of the measure and it is a source of satisfaction to him to know that the law will continue to stand upon the statute books.

Granville

[Special to The Advocate]

Granville, April 19.—The college girls' debate in Recital hall on Tuesday evening, April 18th drew a large audience of people interested in the contestants and in the question under discussion, "Whether the Philippines Shall be Given Their Independence by 1921." The Shepardon team with Miss Margaret Given of the Junior class as captain, put up a strong negative the other members of the team being Miss Florence Chubbuck, Junior and Miss Flossie Locke sophomore. All three making their initial appearance as debaters. Miss Given was conceded to have been the strongest debater on the floor. None excepted. The Muskingum trio were all members of the senior class whose record had been tried in previous encounters and they walked off with the laurels. The affirmative as claimed by them was convincing and eloquent. The personnel of the visiting team was: Miss Isabel Elliot, captain; Misses Ruth Mitchell and Margaret Moss. Excellent music was furnished by Mr. Bodenweber, tenor, accompanied by Miss Ruth Edridge, and a number by the quartet of the Denison Glee club. Messrs Collier, Athey, Ullman and Thiele entered repeatedly. The judges were: Attorney F. Marshall, Columbus; Prof. Henry R. Spencer, O. S. U.; and Mr. C. M. Carter, O. S. U. The Shepardon affirmative won at Athens last night.

President and Mrs. C. W. Chamberlain delightfully entertained the members of the Denison Board of Trustees at dinner in Shepardon Commons last evening at six o'clock. Twenty-six having arrived in time for this social preliminary to the strenuous business meeting at 8 o'clock. It was during this hour that a committee from the junior class, consisting of Don Atwell "Pete" Webber and Miss Alice Hay George, formally presented the trustees with the 1918 Address which this year was dedicated to the Denison Board. Acceptance was made in a brief but happy speech by G. M. Peters of Cincinnati, president of the board. During the past year two of the Board's most valued members were removed by death, and one by resignation, leaving three vacancies to be filled by the board, either now or at the June meeting.

Mr. D. E. Williams of Columbus, Mr. L. R. Zellars of Canton, Mr. W. H. Cathcart of Cleveland, Mr. F. P. Beaver and Mr. Torrence Huffman of Dayton, Rev. Paul Lasher, D. D., of Cincinnati were among the Denison trustees who arrived early in the afternoon, on Tuesday.

One of the lighter stunts given by the Denison Glee club is the original sketch written by one of the members, which has been worked to a high degree of merit by frequent repetitions. "Julius Caesar" is a classic. Don't fail to see him "done" on the evening of April 22. Give the boys who have done so much to advertise Denison, a rousing welcome at their home concert. They have sung to enthusiastic audiences elsewhere in the state, and your loyalty will be rewarded by an evening of real enjoyment.

Mr. Arthur E. Gunther of Cleveland, arrived in Granville last evening, to join Mrs. Gunther who with their infant son has been visiting her parents, Mr. and Mrs. Jano.

WITH PERSHING'S FIGHTING MEN "SOMEWHERE IN MEXICO"

These official photographs of the expeditionary force in Mexico were passed by the censor, who did not permit the photographer to reveal, however, the place where the pictures were taken. Upper photo shows batteries B and C of the 6th field artillery in camp. The lower photo, taken at the same time and place, shows Villa's pursuers at lunch.
